

Why Home School

The education system of our country today is in trouble. As the economy worsens, the public school system is broke. There are a lot of changes that have been talked about that are coming in the near future because of this. The system is definitely getting ready to go through a massive change, and it will not be for the good of your children.

As it is, the public school system is not what it was when parents were in school. I hear a lot of parents say, "We made it through the school system and we turned out OK." That is definitely said by parents who have lost touch with what is going on in the world. Are these things worse than what you went through in school? As the public school funding is cut more and more, it depends heavily on money given by special interest groups such as groups who advocate homosexuality, abortion, and others. Their purpose is to brainwash your children into accepting their agenda. Since the Christians are against most of these agendas, these groups are anti-Christian in their thinking. Their agenda, their ways of thinking, fill the curriculum that is written by those who advocate their group. Here's more. Evolution is one issue. Another is the Moslem religion being taught, while you can't mention the name of Jesus. Children are being taught in many different ways that there is no truth, that the truth is relative to how you see it. They are taught that there is no right or wrong. Lies are put into your children's minds daily. Many, many children are failing academically as the United States public school system falls to become one of the lowest ranked school systems in the world. To make this all worse is the problem of drama and bullying making school so emotionally scarring to the point that the suicide rate of middle and high school students is at an all time high. The enemy is trying to destroy your children's physical and spiritual lives. Isn't it time you stop allowing him to do so.

Why are there not more parents who are home schooling? There are many lies that the enemy tells that prevents parents from home schooling. One is that things aren't so bad. Another is that you can't teach your children because you aren't educated to be a teacher. Home school curriculum is set up so that parents are able to teach. Also, those who home school through New Life will receive help and support to be able to do so. Another lie is that children need to socialize. They need to know how to deal with the bad in the world and home schooling deprives them from being able to do that. Home school children are not bubble children. They are still in the world. They participate in events and activities. They can have friends over. They are in church. They socialize. They just don't have to put up with all the other junk that is there at school. The biggest lie is that you don't have the time in your busy schedule to home school. If you put a priority on things that are of the most value, you will find more time for those things. If parents work and aren't able to home school make a way to do so, and enlist grandparents and other family members. Get together in a group with other home school parents, and take turns working with the children all together. It can be done.

We have just one question. What would God have you to do?
